Logitech®

Alert 750e Outdoor Master System

Weatherproof digital video security system with night vision.

**Back yards. Driveways. Dark garages or basements.
They're covered.**

Logitech Alert™ 750e Outdoor Master System is the weatherproof, night vision video security system you can set up yourself in minutes without new wires or networking hassles. Smart cameras detect motion, record HD video, and can send you alerts—even when your PC is turned off*. Log in to our free, secure online viewing site from an Internet-connected computer, anywhere in the world.

Key Features

- No new wires or networking hassles
- Motion-triggered alerts and HD video recording
- View live video through a free, secure Web site
- Stores video on included microSD™ card or your PC
- Expand your system with up to six cameras

Alert 750e Outdoor Master System

- 1-year limited hardware warranty

Feature Spotlight/Focus

Complete outdoor weatherproof digital video security system

Everything you need to get up and running fast—a smart camera that can be used indoors or out, day or night; powerful PC software; and a free remote viewing account.

Easy installation with HomePlug® networking

Simple 3-step set up that takes just minutes—install the Logitech Alert software, connect to your network, and plug in your camera. There's no new wiring or networking hassles—HomePlug® networking uses your existing electrical wiring and outlets to connect your cameras to your network and transmit video securely.

HD video (960 x 720 @15fps) with night vision

High-quality video with night vision makes it easier to recognize people and other objects, so you can see more, more clearly even in complete darkness.

Motion-triggered recording and alerts

Automatically triggers video recording and can be set up to send notifications to your e-mail address and mobile phone, keeping you informed. You can even specify up to 16 motion detection zones within the frame.
